

NutriFit: GENETIC SCREENING FOR FITNESS

Are athletes born or made? The answer could be a combination of both. Whether you want to burn fat, gain muscle, or just feel healthier, knowing what you are born with will take you one step closer to your goals.

Have you ever wondered?

We follow the same routine, but why does it seem to work better for my buddy?

Why is it so difficult for me to grow calves?

Why am I having a hard time to reduce my body fat?

The answer could lie in your DNA

There are tiny variations within our DNA that make us all slightly different from one another in how our bodies store fat and respond to workout or diet regimes.

Choose what work best for your genetic

Now you can take a DNA test to uncover the secrets of your body and optimize your training plan accordingly.

The NutriFit Package
