

SHRIMP VIRUS TEST

Viruses are common biological agents in the aquatic environment. Although they do not cause harm to human health, the infection could be economically crippling for the aquaculture industry. It is estimated that losses due to diseases cost the industry \$6 billion each year.

Common Shrimp Viral Diseases Listed by World Organisation for Animal Health (OIE)

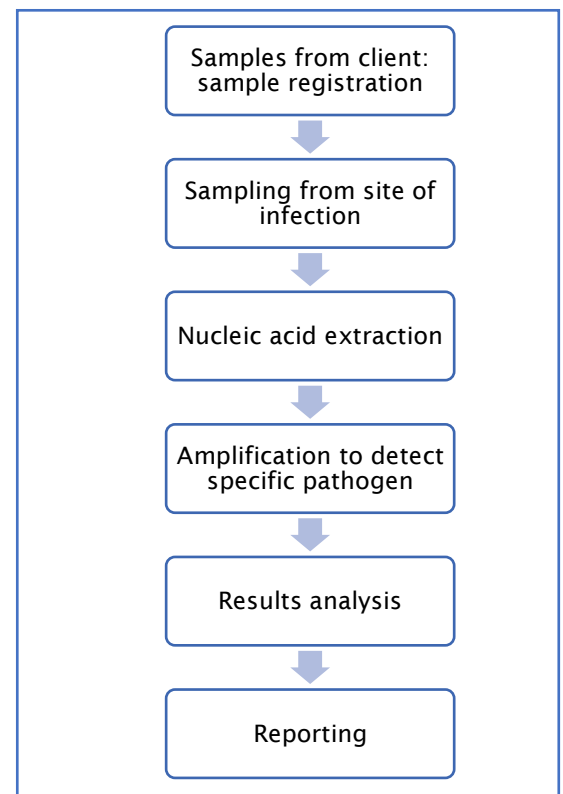

For other viruses, kindly enquire with us :

- DIV1
- IHHNV
- HPV
- MBV
- APHND
