

HAVE YOUR SEAFOOD PRODUCTS TESTED FOR COVID-19?

Coronavirus was detected on a chopping board for imported salmon in Beijing, China – so supermarkets have stopped selling it (June 13, 2020)

Three Ecuadorian establishments suspended to export shrimp to China (July 10, 2020)

Ecuadorian government already steps up for reinforcement of COVID-19 control.

The impact on seafood industry

- Seafood market and its suppliers were closed down.
- Retailers stopped selling related seafood.
- China cancelled the orders.
- Consumers stayed away from seafood restaurants.

How did the virus get there?

Possibly through contamination from infected personnel during processing, transportation and packaging.

Find out with us (What should you test)

We provide COVID-19 testing service on:

- Seafood
- Packaging
- Container Surface
- Work Surface
- Water
- Air

Is your seafood product safe?

- Product contamination can come from an asymptomatic worker
- Contamination can happen unknowingly in any part along the supply chain
