

## HALAL TESTING FOR PHARMACEUTICAL PRODUCTS

Halāl (Arabic: حلال ḥalāl, "permissible"), refers to what is permissible or lawful in Islamic law and it is frequently applied to permissible food and drinks. It is also associated with being wholesome, just and all things that are pure and good (Thoyyib).

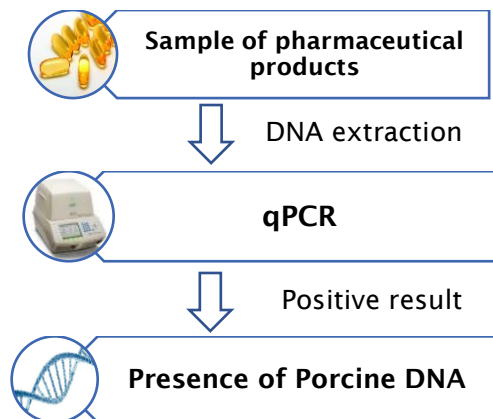

### Gelatin

Gelatin is the most common animal derived ingredient in the pharmaceutical industry. It is used in making hard- and soft-shelled capsules as well as stabilizers. Although gelatin can be derived from multiple sources, pig skin is still the most common source.

### Pharmaceutical Products Possibly Contain Ingredients of Porcine Origin

- Medicinal tablets
- Heparin
- Insulin
- Vaccines

### Our Halal Testing Solutions Porcine DNA Detection

### Other Halal Tests
