

COVID-19 AND FOOD SAFETY TESTING

As the number of COVID-19 cases increase worldwide, reducing workplace risks has never been more critical to ensure the continuity of the production line.

Contamination by COVID-19 Virus Could Happen Unknowingly Along the Production Line

COVID-19 in the Food Industry

Articles shown include: 'Constant contact and confined spaces are risky' (TheStar), 'Chinese cities find virus in Brazilian chicken wings, Ecuadorian shrimp packaging' (Reuters), and 'China orders inspections to prevent COVID spread via cold chain' (Reuters).
